Hon. W. K. Newell Hon. A. C. Dixon

SCHOOL OF MEDICINE

FACULTY

P. L. Campbell, B. A., L. L. D., President of the University.

Henry E. Jones, M. D., Emeritus Professor of Clinical Gynecology.

George Milton Wells, M. D., Emeritus Professor of Pediatrics.

Andrew Jackson Giesy, M. D., Emeritus Professor of Clinical Gynecology.

Simeon Edward Josephi, M. D., Professor of Nervous and Mental Diseases. Head of Department of Mental and Nervous Diseases and Medical Jurisprudence.

Otto Saly Binswanger, Ph. D., M. D., Associate Professor of Clinical Medicine.

Kenneth A. J. Mackenzie, M. D., C. M., L. R. C. P. and L. R. C. S. Edin., Dean, Professor of Operative and Clinical Surgery, Head of Department of Surgery.

Richard Nunn, B. A., B. Ch., M. D., Professor and Head of Department of Diseases of Eye, Ear, Nose and Throat.

James Francis Bell, M. D., L. R. C. P. London, Professor of Theory and Practice of Medicine, Head of Department of Medicine.

George Flanders Wilson, M. D., Professor of Principles and Practice of Surgery.

Ernest Fanning Tucker, B. A., M.D., Professor of Gynecology, Head of Department of Gynecology.

Edmunde John Labbe, M. D., Professor of Pediatrics.

George Burnside Story, M. D., Professor of Obstetrics, Head of Department of Obstetrics.

Albert Edward MacKay, M. D., Professor of Genito-Urinary Diseases.

James Cullen Zan, M. D., Associate Professor of Clinical Surgery.

Robert Clarke Yenney, M. D., Professor of Clinical Medicine.

John Dice MacLaren, M.S., M. D., Professor of Physiology, Head of Department of Physiology.

Richard B. Dillehunt, M. D., Professor of Anatomy, Head of Department of Anatomy.

Robert Louis Benson, A. M., M. D., Professor of Pathology, Head of Department of Pathology and Bacteriology.

Willey Higby Norton, A. B., M. D., Associate Professor of Bacteriology, Assistant Dean.

Howard D. Haskins, A. B., M. D., Professor of Physiological Chemistry, Head of Department of Physiological Chemistry.

H. B. Myers, A. B., M. D., Professor of Materia Medica, Pharmacology, and Toxicology, Head of Department of Pharmacology.

ASSISTANT PROFESSORS

ALVIN WALTER BAIRD, A. B., M. D., Assistant Professor of Surgery.

J. ALLEN GILBERT, Ph. D., M. D., Assistant Professor of Medicine.

WILLIAM HOUSE, M. D., Assistant Professor of Nervous and Mental Diseases.

J. C. ELLIOTT KING, A. B., M. D., Assistant Professor of Dermatology and Syphilology.

CLARENCE J. MCCUSKER, B. S., M. D., Assistant Professor of Obstetrics.

MARY V. MADIGAN, M. D., Assistant Professor of Physiology.

E. H. MCLEAN, A. M., M. D., Assistant Professor of Pathology.

HOMER T. COFFEN, A. B., M. D., Assistant Professor of Clinical Medicine.

LAWRENCE SELLING, A. B., M. D., Assistant Professor of Clinical Medicine.

WILLIAM S. KNOX, B. S., M. D., Assistant Professor of Clinical Medicine.

A. N. CREADICK, A. B., M. D., Assistant Professor of Anatomy.

OTIS BUCKMINSTER WIGHT, A. B., M. D., Assistant Professor of Gynecology.

GEORGE SHATTUCK WHITESIDE, M. D., Assistant Professor of Genito-Urinary Surgery.

CALVIN S. WHITE, M. D., Assistant Professor of Medicine (Hygiene and Sanitation).

ROBERT H. ELLIS, M. D., Assistant Professor of Obstetrics.

RALPH CHARLES MATSON, M. D., Assistant Professor of Medicine. In charge of Tuberculosis Division of Out-Patient Department.

RAY W. MATSON, M. D., Assistant Professor of Medicine. In charge of Tuberculosis Division of Out-Patient Department.

J. EARLE ELSE, M. D., Assistant Professor of Surgery.

ASSOCIATES

GEORGE AINSLIE, M. D., Associate in Opthalmology.

J. B. BILDERBACK, M. D., Associate in Pediatrics.

JOHN N. COGHLAN, M. D., Associate in Otology.

RALPH A. FENTON, A. B., M. D., Associate in Rhinology and Laryngology.

L. H. HAMILTON, A. B., M. D., Associate in Surgery.

GEORGE F. KOEHLER, M. D., Associate in Medicine.

HARVEY G. PARKER, M. D., Associate in Dermatology.

GEORGE NORMAN PEASE, A. B., M. D., Associate in Surgery.

Frank M. Taylor, A. B., M. D., Associate in Medicine.
Ralph C. Walker, M. D., Associate in Medicine.
Fred Ziegler, B. S., M. D., Associate in Surgery.
Paul Rockey, M. D., Associate in Surgery.
J. F. Dickson, M. D., Associate in Opthalmology.
W. B. Holden, M. D., Associate in Surgery.
B. L. Norden, M. D., Asssociate in Surgery.
C. R. McClure,, M. D., Associate in Surgery.
A. C. Smith, M. D., Associate in Surgery.

INSTRUCTORS

Horace Burnett Fenton, A. B., M. D., Instructor in Therapeutics.
Donald H. Jessop, Phm. G., M. D., Instructor in Anatomy.
Frederick A. Kiehle, A. B., M. D., Instructor in Ophthalmology.
James Wendell Rosenfeld, A. B., M. D., Instructor in Pediatrics.
William A. Shea, M. D., Instructor in Surgery.
Perry J. Payne, S. B., M. D., Instructor in Dermatology.
Sherman E. Wright, A. B., M. D., Instructor in Opthalmology and Otology.
Courtland Linden Booth, A. B., M. D., Instructor in Medicine.
William George Scott, M. D., Instructor in Obstetrics.
Marr Bisaillon, M. D., Instructor in Anatomy and the Out-Patient Tuberculosis Clinic.
Harriet J. Lawrence, M. D., Instructor in the Out-Patient Tuberculosis Clinic.
C. Stuart Menzies, M. D., Instructor in Anatomy.
Allen P. Noyes, M. D., Instructor in Pediatrics.
H. W. Howard, M. D., Instructor in Genito-Urinary Surgery.
E. F. Ziegelman, M. D., Instructor in Gynecology.
Arthur S. Rosenfeld, A. B., M. D., Instructor in Medicine.
James W. Rosenfeld, A. B., M. D., Instructor in Pediatrics.
Carl T. Ross, M. D., Instructor in Surgery.
B. N. Wade, M. D., Instructor in Surgery.
Eugene Rockey, M. D., Instructor in Surgery.
G. Lee Hynson, M. D., Instructor in Surgery.
Gertrude French, B. S., M. D., Instructor in Ophthalmology.
R. F. Davis, M. D., Instructor in Ophthalmology.
David N. Roberg, M. D., Instructor in Tropical Medicine.

COMMITTEES OF THE FACULTY

(The first named is Chairman)

ADMINISTRATION AND FINANCE—Kenneth A. J. Mackenzie, J. F. Bell, O. S. Binswanger, S. E. Josephi and E. F. Tucker.

REVISION OF CURRICULUM AND ADVANCED STANDARDS—W. H. Norton, R. B. Dillehunt, J. D. MacLaren, G. B. Story, R. L. Benson and H. D. Haskins.

LEGISLATION—K. A. J. Mackenzie, S. E. Josephi, E. F. Tucker, E. J. Labbe and R. C. Yenney.

RULES—A. E. Mackay, R. B. Dillehunt, J. D. MacLaren, G. B. Story and H. B. Myers.

ADMISSION, PROMOTION AND PREPARATORY SCHOOLS—R. L. Benson, R. B. Dillehunt, H. D. Haskins, R. C. Yenney and H. B. Myers.

GROUNDS, BUILDINGS AND IMPROVEMENTS—K. A. J. Mackenzie, R. Nunn R. B. Dillehunt, S. E. Josephi and J. C. Zan.

STUDENT AFFAIRS—H. D. Haskins, J. C. Zan, R. L. Benson and G. B. Story.

SCHOLARSHIPS AND ENDOWMENTS—E. F. Tucker, E. J. Labbe, K. A. J. Mackenzie and George F. Wilson.

FACULTY AND STUDENTS' LIBRARY—J. D. MacLaren, R. L. Benson, G. B. Story and H. B. Myers.

ETHEL MONTGOMERY, Secretary-Registrar.

SCHOOL OF MEDICINE

STUDENTS, 1915-1916

Candidates for the Degree of Doctor of Medicine

Fourth Year

Walter W. Black	Portland, Ore.	45 Trinity Place
Horace P. Belknap, Jr.	Prineville, Ore.	Good Samaritan Hospital
Frank E. Butler	Salem, Ore.	Emanuel Hospital
Charles W. Carter	Portland, Ore.	371½ N. 23d St.
Harry S. Harding	Portland, Ore.	2d and Oak Sts.
Tokuji Hirata	Portland, Ore.	50½ N. 3d St.
Floyd B. Lawton	Portland, Ore.	629 E. Madison St.
Claude A. Lewis	Springbrook, Ore.	Emergency Hospital
Charles R. McCall	Gresham, Ore.	
William C. Munley	Portland, Ore.	1171 Clinton St.
Ray E. Pomeroy	Salem, Ore.	St. Vincent's Hospital
Charles G. Rattner	Portland, Ore.	Good Samaritan Hospital
Robert A. Sherwood	Portland, Ore.	Good Samaritan Hospital
Wilbur H. Thompson	Gresham, Ore.	748 Lovejoy St.
Joseph A. Trommald	Portland, Ore.	389 N. 25th St.
Henry Ulvin	Silverton, Ore.	605 Northrup St.
Ray M. Waltz	Monroe, Ore.	605 Northrup St.

Third Year

James Francis Bell, Jr.	Portland, Ore.	821 Irving St.
Ernest A. Daus	Weiser, Ida.	186 N. 22d St.
Isaac Dellar	Portland, Ore.	874 Northrup St.
Lucille Hart	Albany, Ore.	162 N. 22d St.
Roy W. Hendershott	Tiffin, Ohio	267 N. 21st St.
Ernest D. Lamb	Eugene, Ore.	186 N. 22d St.
Murray M. Levy	Portland, Ore.	Elmwood Apts.
Ralph L. Lieser	Vancouver, Wash.	162 N. 22d St.
James A. Loundagin	Portland, Ore.	162 N. 22d St.
Russell Flint Maddren	Brooklyn, N. Y.	916 Journal Bldg.
Delbert H. Nickson	Seattle, Wash.	186 N. 22d St.
Herbert van H. Thatcher	Portland, Ore.	829 Quimby St.

Second Year

Anson G. Allen	Astoria, Ore.	
Frank J. Clancy	Seattle, Wash.	162 N. 22d St.
Nicholas S. Checkos	Portland, Ore.	208½ 14th St.
John J. Darby	Pomeroy, Wash.	691 Lovejoy St.
John B. Farrior	Portland, Ore.	Wheeldon Annex
George E. Fortmiller	Albany, Ore.	291 W. Park St.
Ira E. Gaston	Astoria, Ore.	566 Johnson St.
James C. Ghormley	Portland, Ore.	231 E. 76th St. N.
Elward J. Jasper	Forest Grove, Ore.	748 Lovejoy St.
Jesse Dale Jewell	Portland, Ore.	899 E. Everett St.
Russell Keizer	Portland, Ore.	761 Lovejoy St.
Richard P. Landis	Portland, Ore.	764 Lovejoy St.
Geo. W. Montgomery	Falls City, Ore.	566 Johnson St.
Marion N. Power	Sande Fuca, Wash.	Campbell Hotel
Kathryn Rueter	Forest Grove, Ore.	741 Hoyt St.
Clarence W. Shannon	Seattle, Wash.	243 West Park St.
Robert B. Smalley	Seattle, Wash.	162 N. 22d St.
Delbert C. Stanard	Portland, Ore.	361 Benton St.
Dennis S. Swart	Woodland, Wash.	
Eugene P. Steinmetz	Portland, Ore.	1520 E. Taylor St.
Herbert L. Strong	Kelso, Wash.	586 E. 15th St. N.
O. Rudolf Thielemann	Portland, Ore.	698 Glisan St.
Douglas H. Warner	Portland, Ore.	724 Hancock St.
Randall F. White	Portland, Ore.	806 Jefferson St.
Ralph G. Young	Portland, Ore.	214 E. 45th St.

First Year

Robert V. Baker	Portland, Ore.	770 E. 40th St. S.
John W. Barcroft, Jr.	Portland, Ore.	21st and Johnson Sts.
Leland V. Belknap	Prineville, Ore.	Good Samaritan Hospital
Linus H. Bittner	Portland, Ore.	604 E. 18th St.
Jesse L. Bloch	Portland, Ore.	695 Lovejoy St.
Vernon J. Brown	Independence, Ore.	779 Johnson St.
Clyde W. Collings	Vancouver, Wash.	162 N. 22d St.
Dean P. Crowell	Albany, Ore.	341 11th St.
Winfred P. Dana	Tacoma, Wash.	503 Ross St.
Charles D. Donahue	St. Johns, Ore.	609 N. Willamette Blvd.
John Harold Fitzgibbon	Portland, Ore.	1101 Rodney Ave.
Herbert H. Foskett	McMinnville, Ore.	761 Lovejoy St.
Lloyd B. Hainline	Portland, Ore.	1290 E. Morrison St.
Blair Holcomb	Portland, Ore.	216 Graham Ave.
Irene M. Hunt	Roseburg, Ore.	655 E. Clinton St.
Norman Elmer Irvine	Arlington, Ore.	741 Glisan St.
Alfred H. Johnston	Portland, Ore.	747 E. 26th St. N.
Trenton Johnston	Portland, Ore.	365 E. 28th St.
Victor H. Leweaux	Portland, Ore.	205 Tudor Arms Apts.
Ernest K. McCown	Vancouver, Wash.	112 W. 21st St.
Archibald N. MacDonld	Ritzville, Wash.	Y. M. C. A.
William D. Nickelsen	Hood River, Ore.	741 Glisan St.
James T. Papas	Portland, Ore.	315 West Park St.
John H. Rossman	Portland, Oregon	570 Weidler St.
Edmund W. Simmons	Portland, Ore.	214 Graham Ave.
Charles S. Warwick	Spokane, Wash.	162 N. 22d St.
Ivan M. Woolley	Portland, Ore.	1085 E. Yamhill St.

Special Students

James F. R. Fairbairn	Portland, Ore.	712 Flanders St.
Zillah Huddleson	Portland, Ore.	Riverdale

UNIVERSITY OF OREGON

HISTORICAL SKETCH

The University of Oregon was established by act of the State Legislature October 19, 1872, and located at Eugene. Deady Hall, the first University building, was erected by the citizens of Lane County, and presented to the Board of Regents in July, 1876. In September of the same year, the University opened its doors for the reception of students. The first class was graduated in June, 1878.

The equipment of the University was at first very small, and the courses of instruction were limited practically to literary lines. The University grew rapidly, and the demand for a broader curriculum was met by the addition of engineering, scientific and technical courses. The Law School was established in 1884, and the Medical School in 1887. With the growth and development of the State, the University has increased in numbers and financial resources. Buildings have been erected, new departments added, and large equipment installed.

A noteworthy enlargement of the functions of the University is the Correspondence and Extension departments, which bring the resources of the University within the reach of those who are unable to attend the regularly organized classes on the campus, and further provide lectures for such communities as desire to avail themselves of the opportunity.

The aim of the University of Oregon in its relation to the educational system of the State is two-fold: First, to supplement the work of the high schools with a four years' university course. Second, to encourage graduate study.

While the University furnishes instruction in the various branches requisite for a liberal education, and in the techinal branches of architecture, commerce, education, journalism, law, medicine and music, it also aims to encourage research work in its departments, and to offer to those who have completed college courses at the University or elsewhere an opportunity to do graduate work along general or special lines.

In addition to its work as a part of the public school system, the University attempts to aid in the State's development by gathering exact and detailed information concerning its industrial resources, and by investigating, through its several departments, such civic and industrial problems as are of special interest to the people of the State.

Thoroughly in sympathy with the modern tendency toward the socialization of public education, it is the policy of the University to extend its activities to the service of the State in every way in which it may be of value.

The University of Oregon is located at Eugene, in Lane County, at the head of the Willamette Valley. Eugene is 123 miles south

of Portland, with which it is conveniently connected by the Southern Pacific, Oregon Electric, and the Portland, Eugene and Eastern railroads. Eugene is a prosperous community of 12,000 inhabitants. Its well-paved streets and street railway systems, its many fine public buildings and its attractive residence districts combine to produce an effect of municipal well-being. Eugene's effective public school system is given higher excellence by the completion of a new high school building, representing the most approved type of structure of its class. The municipal water supply—always a vital consideration—is unexceptionably good. Copious, cold and pure, the water is subjected to twenty tests each week in the laboratories of the University—a final safeguard against dangerous bacterial contamination. The cultural and moral tone of Eugene is high, and the community is unusually free from corrupting influences.

The University grounds are situated about one mile southeast of the center of the city. The campus contains 80 acres. The buildings are situated on a natural rise overlooking the city. Native and exotic trees and shrubs are interspersed with rose hedges and flower gardens. The whole is a beautifully kept lawn, with attractive walks and drives, and is one of the beauty spots of the State. The Willamette River flows along its northern border and the snow-covered Three Sisters and peaks of the Coast Range are in full view.

MEDICAL SCHOOL

HISTORY

The Medical School of the University of Oregon was established at Portland in 1887 by a charter from the Regents of the University. The first building was a small frame structure located at what is now the corner of Marshall and Twenty-second Streets, on the grounds of the Good Samaritan Hospital. It consisted of a single lecture room on the ground floor, and an anatomical laboratory, on the upper floor. In 1890 the present lot was purchased, and the building was transferred to it and remodeled. The present building was erected in 1892. It is a three-story structure and contains well-equipped laboratories, a convenient dissecting room, two large lecture rooms, and the medical school library.

The merger of the Medical Department of the Willamette University, the first foundation of the kind in the State of Oregon, with the Medical School of the University of Oregon, was effected by mutual and friendly arrangements on the first day of September, 1913. Under the terms of the merger the Medical Department of the Willamette University retired permanently from the field of medical education, and transferred its entire enroll-

ment, numbering 40, to the State School in the city of Portland, and arrangements were effected so that the students of the Willamette University will graduate during the course of the following three years, and shall receive degrees indicative of the merger of the two schools, and the alumni of both schools will be consolidated under the Medical School of the University of Oregon, which becomes at once the sole school of medicine in the Pacific Northwest, thus serving the largest territory in the United States served by one medical school.

In the spring of 1914 a gift of 20 acres of land was made to the Medical School of the University of Oregon by the Executive Committee of the Oregon-Washington Railroad and Navigation Company.

The campus is situated on Marquam Hill, one of the most attractive scenic points in the city of Portland, and will be approached by easy grades over the Terwilliger Boulevard.

Under the terms of the gift it will be possible to erect hospitals upon the campus which will enable the Faculty of the school to give the most practical instruction upon all branches of medicine.

The plan for the erection of a group of buildings of classic design, including hospitals, is now being considered by the Regents and Faculty for presentation to the Legislature.

LOCATION

The Medical School is located at the corner of Twenty-third and Lovejoy Streets, opposite the Good Samaritan Hospital, and is reached by the Washington and Twenty-third Street cars.

ORGANIZATION AND GOVERNMENT

The Medical School is governed locally by the Executive Faculty, composed of the Professors and Associate Professors; but is responsible to the Regents of the University of Oregon, of which it is an integral part, in both scholastic and financial matters.

The teaching body consists of 60 members. There are 18 professors, ten of whom are heads of their respective departments, and six if whom devote their time to the work of the first two years. In addition to these there are assistant professors, associates, instructors, and assistants in the various departments.

ALUMNI

DOCTORS OF MEDICINE OF THE UNIVERSITY OF OREGON AND THE WILLAMETTE UNIVERSITY

First Class University of Oregon, 1887

(W) Willamette graduates.

Schmidt, Paul A., Oregon City, Ore.

FACILITIES

BUILDINGS

The Medical School building is a three-story structure, heated by hot water and lighted by gas and electricity. The laboratory work is conducted here. Two large lecture halls supplied with charts, blackboards, and a projection lantern, admirably meet the need for lectures, quizzes and demonstrations.

LABORATORIES

In 1910, a complete reorganization of the various laboratory departments was instituted, and the laboratories were newly equipped, and the facilities were much improved. The laboratories of chemistry, physiology, histology bacteriology, pathology, pharmacology and anatomy possess all the modern apparatus for practical instruction in those subjects. The apparatus will be further augmented for this session. Under each department will be found a more detailed description of its facilities.

CLINICAL ADVANTAGES

The Medical School has exceptional clinical advantages because of its intimate relation to large general hospitals, in all of which are parts of the work of the clinical years.

Good Samaritan Hospital is located just opposite the Medical School. It accommodates 250 patients and has recently built a new operating room with a convenient amphitheatre.

St. Vincent's Hospital is within five minutes' walk of the Medical School. It is modern in every respect and contains 500 beds and six excellent operating rooms, one of which has a large amphitheatre, specially constructed to afford facilities for teaching surgery and medicine in this Medical School.

Multnomah County Hospital is a charitable institution readily accessible by street car, and affords much material for practical clinical work. This institution will soon be enlarged to comply more thoroughly with the needs of Multnomah County.

Members of the faculty conduct clinics daily in these hospitals, and the student is brought into actual contact with methods of diagnosis and treatment.

Portland's geographical position is such that its hospitals receive many patients from a large surrounding territory, resulting in great diversity of diseases.

DISPENSARIES

The Portland Free Dispensary is located at Fourth and Burnside Streets in a district which abounds in the types for which a dispensary is necessary. It is conducted by the Medical School in affiliation with the People's Institute, the Men's Resort, and the Visiting Nurses' Association. The Jewish Neighborhood House Dispensary has been recently completed, and is situated opposite Multnomah Hospital at Second and Hooker Streets. The chairs of medicine, surgery, gynecology, opthalmology, otology, laryngology, pediatrics and genito-uninary diseases hold clinics in these dispensaries, and the junior and senior classes are assigned to definite hours in actual clinical work with the patient.

LIBRARY

The Medical School library was established by gift of the medical libraries of the late Drs. R. B. Wilson and Rodney Glisan, two distinguished pioneer physicians of this State. It has a room in the Medical School building. It has been recently added to, and will be further enlarged from time to time. Students may have access to books and periodicals subject to the library rules. Students may have access also to the library of the Portland City and County Medical Society.

REQUIREMENTS FOR ADMISSION

These comprise as a minimum (a) the successful completion of a four-year high school or academic course, or the equivalent thereof; also (b) two years of successfully completed college work in an institution acceptable to the University of Oregon. This latter work must have included one year each of inorganic chemistry, physics, biology, organic chemistry, six hours; a modern foreign language; also (c) a certificate of good moral standing signed by two reputable physicians.

A. HIGH SCHOOL WORK REQUIRED

The high school work imperatively demanded of each matriculant comprises evidence of the completion of a four-year course in an accredited high school or the equivalent thereof, as demanded for unconditional admission to the University College of Literature, Science and the Arts at Eugene.

Fifteen units in all are required, nine of which are in required subjects, and the remaining six of which may be selected from any subjects for which a standard high school gives credit.

By a unit of work, is meant a subject running one year of at least 36 weeks, five times a week, with each period not less than 40 minutes in length.

REQUIRED SUBJECTS

The required subjects with the number of units in each are as follows:

English	3 units	History	1 unit
Algebra	1 unit	Science	1 unit
Plane Geometry	1 unit		
One Foreign Language	2 units	Total	9 units

ELECTIVE SUBJECTS

The other six of the fifteen units may be selected from any of the subjects for which standard high schools give credit toward graduation and may include additional work in the required subjects.

B. COLLEGE WORK REQUIRED

Two years of college work in a college or university accredited by the University of Oregon must have been completed, and this must include at least eight semester hours in didactic and laboratory courses in Advanced Physics, General Chemistry, General Biology, and advanced German or French, and six hours of didactic and laboratory in organic chemistry, including certified laboratory notebooks.

The following schedule shows the minimum number of hours acceptable in the subjects of the preliminary year:

SUBJECT	Lectures or recitations per week	Laboratory periods per week	Total credit hours per semester	Total semester hours per year
Advanced Physics	2 or 3	2 or 1	4	8
General Chemistry	2 or 3	2 or 1	4	8
Organic Chemistry	2 or 3	2 or 1	3 or 6	.....
General Biology	2 or 3	2 or 1	4	8
Advanced German or French	4 or 3	.....	4 or 3	8 or 6
Totals	12 or 15	8 or 4	19 or 18	38 or 36

Each laboratory period must extend over at least two hours.

ADMISSION BY EXAMINATION

The above credits are accepted upon credentials from proper authority without examination. Students from schools not recognized by the University of Oregon must pass an examination in the required branches. Such examination will be conducted by a member of the Faculty of the University College of Literature, Science and the Arts. After such examination the student must submit credentials from the examiner certifying to his successful completion thereof. The next examination will be held at the Medical School on September 29, at 9 a. m.

ADMISSION TO ADVANCED STANDING

No student will be admitted to advanced standing who has not complied fully with the requirements for admission to this Medical School. Credits will be given to students from other recognized medical instutions, the requirements for admission and standard of work of which are equivalent to those of this Medical School; upon presentation of credentials from proper authority. Such student must submit a certificate of honorable discharge from his previous college as well as evidence (such as laboratory notebooks) of the exact amount of work he has successfully completed there, both of which are subject to the approval of the heads of the department involved and of the Dean.

PRE-MEDICAL COURSES

High school students are advised to study the required entrance subjects with at least two years of German, and sufficient mathematics for the required college physics.

For the required year of college biology, chemistry, physics, and modern language, the pre-medical student is advised to complete the following courses in the University College of Literature, Science and the Arts at Eugene, or equivalent courses elsewhere: Chemistry 1 and 5, physics 3 and 4, zoology 1 and 2, and German 10. For further pre-medical study the student is advised to choose work in chemistry, drawing, English, German, history, psychology, sociology and zoology. The subject of Human Anatomy, Human Histology, Human Embryology, Physiological Chemistry, and Human Physiology are best studied in a medical school.

Inasmuch as four years of residence in a recognized medical school is required for the degree of Doctor of Medicine, no time credit is granted for work done at Engene, or in other nonmedical colleges, but subject credit may be given for satisfactory work if approved by the Dean, and the head of the Medical School department concerned.

REQUIREMENTS FOR GRADUATION

The following are the requirements of the candidate for the degree of Doctor of Medicine:

He must be at least 21 years of age, and of good moral character.

He must have finished four full medical courses of at least eight months each, no two of which shall have been taken within the same twelve months, and the last of which must have been taken in this Medical School.

He must have paid all fees due the Medical School.

He must have secured satisfactory standing in all examinations and he must be present at commencement exercises and receive his diploma in person unless excused for good reason by the Faculty.

THE CURRICULUM

The curriculum consists of four annual sessions of eight and one-half months (two semesters) each. The first two years are devoted chiefly to the fundamental branches: Anatomy, both gross and minute; physiology, physiological chemistry, neurology, embryology, pathology, pharmacology, bacteriology, materia medica and toxicology.

The last two years embrace the clinical branches: Medicine, surgery, obstetrics, gynecology, therapeutics, clinical pathology, nervous and mental diseases, genito-urinary diseases, and diseases of the eye, ear, nose and throat.

The student approaches the practical subjects of the third year, after the completion of these subjects preparatory to practical medicine. The principles of medicine, surgery and obstetrics are taken up in recitations, in sections at the dispensary, and in the clinics. Clinics, lectures, recitations and demonstrations are conducted in medicine, surgery, nervous diseases, gynecology, eye, ear, nose and throat, genito-urinary diseases, dermatology and pediatrics.

Classes are sufficiently small to allow each student the advantages of much personal instruction.

COMBINED COURSE

After September 1, 1916, those students having successfully completed (1) the first three years leading to an A. B. at the University, and (2) the first year at the University Medical School, will receive the degree of Bachelor of Arts.

GENERAL INFORMATION

ROUTINE OF ENTRANCE

All applications should be addressed to the Dean, Medical School, University of Oregon, Twenty-third and Lovejoy Streets, Portland, Oregon.

Students contemplating entrance to this Medical School should apply for blank admission forms, which must be carefully filled out and returned to the Dean's office, together with credentials of work in previous schools.

MATRICULATION AND REGISTRATION

The new student is required to present, on matriculation day, (a) his admission credits, if not previously presented; (b) his letter of honorable dismissal from previous college; (c) a certificate of good moral character; and (d) must pay the matriculation fee and fees and deposits for the ensuing term.

Any of the above may be done by correspondence or otherwise, but the student must present himself on registration day for approval of credentials and assignment to classes.

Application for admission will not be considered later than October 7, and an extra charge of Five Dollars ($5.00) will be made for registration later than September 30.

Matriculation and registration will be conducted at the office of the Assistant Dean in the Medical School building on September 29 and 30, from 9 to 12 a. m.

The Dean shall have the right to reject any applicant for admission.

FEES AND DEPOSITS

Matriculation Fee—The Matriculation fee is Five Dollars ($5.00), and is required of every student entering the Medical School and is payable but once.

Tuition—The tuition for each year is One Hundred and Fifty Dollars ($150.00) and is payable at the beginning of the school term. Those preferring to pay tuition in two payments may do so by paying Eighty Dollars ($80.00) at the beginning of the first semester and Seventy-five Dollars ($75.00) at the beginning of the second. This fee includes all laboratory fees.

Breakage Deposit—A deposit of Ten Dollars ($10.00) is required of each student at the beginning of each year for general breakage. The cost of damage done by an individual to University property will be deducted from his deposit; and in case the identity of the one responsible cannot be established, a pro rata charge will be made against the entire class of which he is a member. The remainder of this deposit will be returned at the end of each school year.

All fees are payable in advance at the time of matriculation. Fees are not returnable at any time, except by special action of the Faculty.

The Faculty reserves the right to make changes in curriculum, fees or any other matter at any time.

If a special examination is granted, a fee of $5.00 must be paid the Dean.

SPECIAL STUDENTS

Students who register for special work, and who are not candidates for the degree of Doctor of Medicine, will be charged tuition according to the amount of work undertaken and the nature of the courses.

POST GRADUATES

Graduates of this or other medical schools who are visiting the city for a brief time are cordially invited to attend the various clinics and classes, but those intending to take any definite course must arrange with the Dean.

BOARD AND LODGINGS

Good rooms with all modern conveniences can be obtained in the vicinity of the Medical School at from $8.00 to $15.00 a month. Board may be had at from $12.00 to $18.00 a month; and room and board together may be obtained at from $20.00 to $30.00 a month.

BOOKS AND INSTRUMENTS

The average annual cost of books, instruments and other supplies varies from $15.00 to $25.00. The instructors should be consulted before buying textbooks.

LOCKERS AND MICROSCOPES

Coat room and laboratory lockers will be assigned and a deposit of fifty cents must be made when a key for same is received. Microscopes are rented at a cost of $5.00 per year; oil immersion lens $1.00 extra. Students are urged to purchase microscopes the first year.

RESUME OF WORK

The following is an outline of the work. The curriculum is largely prescribed and this resume includes only that work required of every student. The hours have been figured on a basis of sixteen weeks to a semester:

FIRST YEAR

	Hours per Semester		Hours per Semester	
	Lab'tory	Lecture	Lab'tory	Lecture
FIRST SEMESTER:				
Anatomy—				
Gross	9	3	144	48
Histology	4	2	64	32
Chemistry—				
Organic	9	3	72	24
Physiological Chemistry	9	3	72	24
SECOND SEMESTER:				
Anatomy—				
Gross	9	3	144	48
Neurology	3	1	48	16

MEDICAL SCHOOL

I. ANATOMY

Professor DILLEHUNT Assistant Professor CREADICK
Dr. JESSOP Dr. BISAILLON Dr. MENZIES

The Department of Anatomy provides for instruction in Gross Human Anatomy, Histology, and Embryology. For the former there is a large, light, well-ventilated dissecting room, supplied with stone-top tables. This department possesses a complete set of Bock's anatomical models; excellent articulated skeletons; several complete disarticulated skeletons and charts, to all of which the student has access. Dissecting material is abundant.

The Histology Laboratory is thoroughly equipped, each student having a private locker containing apparatus for fixing, cutting and staining specimens; a good microscope, and all other necessary material for use in minute anatomy.

Embryology is taught chiefly from a study of the development of lower animals, but the department is equipped with eight of Professor Zeigler's wax models of the human embryo, and with several preserved specimens of the human embryo and fetus.

1. DISSECTION OF THE ARM AND THORAX

The student makes a complete dissection of all structures, aided by demonstrations, textbooks, atlases and models. Each student is permitted the use of the disarticulated bones of the part which he is dissecting. The work is carried on under supervision of members of the department and is supplemented by frequent quiz. Dissection period 15 hours, quiz 3 hours a week, 1st 10 weeks, 1st year. Professor DILLEHUNT, Dr. BISAILLON, Dr. JESSOP, Dr. MENZIES. *Six credit hours.*

2. DISSECTION OF THE LEG AND ABDOMEN

Dissection period 15 hours, quiz 3 hours a week, 2d 10 weeks, 1st year, including Splanchnology. *Six credit hours.*

3. DISSECTION OF THE HEAD AND NECK

Dissection period 15 hours, quiz 3 hours a week, 3d 10 weeks, 1st year. *Six credit hours.*

4. HUMAN HISTOLOGY

A complete course in minute human anatomy, beginning with a study of the cell and progressing through the structure of elementary tissues to the anatomy of the various organs and viscera. Lecture 3 hours, laboratory 6 hours a week, 1st semester, 1st year. Dr. CREADICK. *Five credit hours.*

5. HUMAN EMBRYOLOGY

A study of the development of the human embryo from conception to its separation from the maternal organism. Laboratory work is conducted in the study of sections of chick and pig embryos for the earlier stages; and wax models and preserved specimens of human embryos are used in the lectures and demonstrations. Lecture 2 hours, laboratory 6 hours a week, 1st half of 2d semester, 1st year. Dr. CREADICK. *Two credit hours.*

6. NEUROLOGY

A study of the gross and minute anatomy of the human brain and spinal cord, peripheral nerves and their endings, and the organs of special sense. Lecture 2 hours, laboratory 4 hours, 2d semester, 1st year. Dr. CREADICK. *Three credit hours.*

7. TOPOGRAPHICAL ANATOMY

A course of lectures and demonstrations in surface anatomy, position of viscera, surgically important anatomy, etc. Lecture and quiz 2 hours a week, 1st semester, 3d year. Professor DILLEHUNT. *Two credit hours.*

II. PHYSIOLOGY

Professor MACLAREN Assistant Professor MADIGAN

The Department of Physiology offers course in all phases of this science, but the laboratory work is usually restricted to animal experiments, for which modern equipment is provided.

1. HUMAN PHYSIOLOGY

Advanced studies of muscle and nerve, spinal cord and brain, the senses, the human nervous system and mind. Lectures 3 hours, laboratory 4 hours a week, 2d semester, 1st year. *Five credit hours.*

2. GENERAL PHYSIOLOGY

Advanced studies of circulation, respiration, secretion, nutrition, growth and heredity. Lectures 3 hours, laboratory 6 hours a week, 1st semester, 2d year. *Five credit hours.*

3, 4, 5. CLINICAL PHYSIOLOGY

Medical physiology, surgical physiology and the use of apparatus of precision for the diagnosis of disease. Elective for second and third year students. Hours to be arranged. *Five credit hours, both semesters.*

6, 7. RESEARCH PHYSIOLOGY

The application of the newer researches to medicine and surgery. Laboratory practice in experimental medicine. Elective for fourth year students and graduates. Hours to be arranged.

Five credit hours, both semesters.

III. PATHOLOGY AND BACTERIOLOGY

Professor BENSON Associate Professor NORTON
Assistant Professor E. H. MCLEAN

The Department of Pathology has the necessary facilities for the study of gross and microscopic pathology. The pathological laboratories of the leading hospitals of the city are under the direct supervision of the head of this department, and the surgical clinics afford a large amount of fresh pathological material for demonstration. The museum is being constantly augmented from these sources and also from the autopsies which are performed as often as the occasion presents itself. Each student is required to attend a number of autopsies during the year and to write a detailed report of the findings.

A complete set of sections for microscopic study is furnished each student, which he is required to study fully, describe and draw in colors. The student is also taught the technique of pre-preparing sections of tissue, by the celloidin, parrafin and frozen section methods. The school is fortunate in having an ample equipment for such work.

Besides the instruction at the Medical School, consisting of lectures, demonstrations and laboratory study, demonstrations are given at St. Vincent's Hospital by a member of this department in conjunction with the surgical clinics.

The bacteriology laboratory is thoroughly equipped for the study of micro-organisms, of the principles of immunity, and of modern methods of hygiene and sanitation. It is provided with incubators, autoclaves, dry sterilizers, and all necessary apparatus, and a supply of the more important pathogenic organisms is kept on hand. Provision is made for animal inoculations, and the student is given an opportunity to isolate, culture and study the various organisms.

1. BACTERIOLOGY

This is a practical laboratory course in which the students become familiar with the preparation of culture media, the principles of sterilization and disinfection, the methods of cultivating, staining and studying bacteria, the biological examination of air, water and soil, and the important species of pathogenic micro-organisms. The hygienic as well as the pathological relations of bacteriology are considered. Lectures 5 hours, laboratory 15 hours weekly until Christmas holidays, 2d year. Professor NORTON. *Seven credit hours.*

2. PATHOLOGICAL HISTOLOGY, GENERAL PATHOLOGY, AND STUDY OF TUMORS

A laboratory course in general pathology, comprising the study of prepared slides supplemented by experiments; the study of fresh and museum specimens, lectures and recitations. Lectures 5 hours, laboratory 15 hours weekly from Christmas holidays to end of 2d semester, 2d year. Professor BENSON, Assistant Professor MCLEAN. *Ten credit hours.*

3. SPECIAL PATHOLOGICAL ANATOMY AND HISTOLOGY

This course treats the pathological processes from the standpoint of systems of organs, and includes a consideration of the morbid anatomy, pathological histology, and clinical features of each group. Lectures 2 hours, laboratory 4 hours weekly, 1st semester, 3d year. Professor BENSON, Professor NORTON, Assistant Professor MCLEAN, and others. *Three credit hours.*

4. SPECIAL PATHOLOGICAL ANATOMY AND HISTOLOGY

Continuation of Course 3. Lectures 2 hours, laboratory 4 hours weekly, 2d semester, 3d year. Professor BENSON, Professor NORTON, Assistant Professor MCLEAN, and others. Elective. *Three credit hours.*

5. SURGICAL PATHOLOGY

This course, consisting of demonstrations of gross specimens, will be given in the pathological laboratory of St. Vincent's Hospital, and will be supplemented by autopsies. Dr. ELSE.

6. SERUM DIAGNOSIS

For seniors. Elective. Hours to be arranged. Professor BENSON or Professor NORTON.

7. RESEARCH IN PATHOLOGY AND BACTERIOLOGY

Open to specially qualified students. Hours to be arranged. Elective. Professor BENSON, Professor NORTON.

8. AUTOPSY COURSE

Demonstration of fresh material from recent autopsies. Where possible the clinician in atendance on the case will be asked to present the clinical features of the case. One period weekly during year.

9. PRACTICAL HYGIENE

A laboratory course in the chemical and bacteriological analysis of milk, water, sewage and air, with instruction in the use of special apparatus will be offered to students who have completed their work in bacteriology. January 1 to April 1 for fourth year students. Elective. Professor NORTON.

IV. Physiological Chemistry

Professor Haskins

The aim of the course is to give as complete a survey of biochemistry as possible.

The laboratory work includes extended study of proteins, lipins, carbohydrates, enzymes, digestive juices, bile, blood, milk, wine and foeces. Many pathological urines are examined. Each student performs a metabolism experiment. Quantitative determinations are made as follows: The most important fat values, free hydrochloric acid, total acidity and pepsin of stomach contents; haemoglobin and cell counts of blood; total acidity, solids, ash, fat, protein, and lactose of milk; and the total acidity, hydrogen ion concentration, phosphates, chlorides, total nitrogen, ammonia, urea, uric acid, creatinin, sugar, acetone and albumin of urine.

Textbook: Physiological Chemistry, by A. P. Mathews (1915). Lectures, 3 hours, laboratory 9 hours a week, both semesters.

Twelve credit hours.

V. Pharmacology, Toxicology and Practical Therapeutics

Professor Myers Dr. Fenton

Instruction in this department aims to give a practical working knowledge of the characters of drugs and their application in the treatment of disease. Lectures, recitations, laboratory work, conferences and frequent written examinations constitute the course of instruction. The student laboratory is fully equipped with apparatus, drugs and a museum of materia medica. Current journals and books are on file in the laboratory for student reference. A supply of animals is maintained for the study of drug action upon living tissue.

1. MATERIA MEDICA

Instruction is given by means of lectures and recitations concerning the origin, character and preparation of drugs; metrology; prescription writing and incompatabilities. Laboratory work in the actual preparation by each student of all physical forms of drugs according to the United States Pharmacopoeia; the isolation and study of active principles; the appearance, physical and chemical characters and dosage of the more important drugs and chemicals. Lectures 4 hours, laboratory 3 hours a week; second semester.

2. PHARMACOLOGY

Lectures, conferences and laboratory work upon the actions of drugs. The class is divided into small groups, each of which performs experiments illustrating the influence exerted by various

drugs upon the muscular, nervous, circulatory, respiratory, digestive and excretory organs. The indications for the use of each drug, based on its action and the form, dosage and method of prescribing are considered. Lecture 4 hours, laboratory 3 hours; second semester.

3. PHARMACOLOGY

A continuation of the course given during the second year.

4. TOXICOLOGY

The symptoms and treatment of poisoning; the isolation and detection of the more common poisons. Intended only to give an intelligent understanding of the processes involved. Lecture 2 hours, laboratory 2 hours, first semester.

5. THERAPEUTICS

A lecture and recitation course in the practical application of medicinal drugs to pathological conditions, including a review of prescription writing. Dr. FENTON.

Sections of the class are given practical work at the Free Dispensary in the study of drug action in disease and prescription writing. Dr. MYERS.

VI. MEDICINE

Professor BELL Professor YENNEY Assistant Professor GILBERT
Associate Professor BINSWANGER
Assistant Professor WHITE Assistant Professor RAY MATSON
Assistant Professor RALPH MATSON
Dr. KOEHLER, Instructor in Medicine
Assistant Professor SELLING Assistant Professor KNOX
Dr. ROSENFELD, Instructor in Medicine
Dr. BOOTH, Instructor in Medicine
Assistant Professor COFFEN Dr. WALKER, Instructor in Medicine
Dr. TAYLOR, Instructor in Medicine
Dr. ROBERG, Instructor in Medicine

INTERNAL MEDICINE

Medicine is taught at first didactically by recitation from assignments, by practical work in physical diagnosis, and clinical laboratory work. Later the student is brought more closely in touch with the patient by clinics in hospitals and work in the dispensary.

1. MEDICINE RECITATION

A course of quizzes in the principles of medicine from definite assignments in a one-volume medicine. 2 hours a week, both semesters, 3d year. Dr. KNOX. *Four credit hours.*

2. PHYSICAL DIAGNOSIS

A lecture and practical course in methods of physical examination with demonstrations and practice in percussion, auscultation, etc. 2 hours a week, 2d semester, 2d year. Dr. BOOTH.

Two credit hours.

3. PHYSICAL DIAGNOSIS

A continuation of Course 3 with work in pathological conditions. 2 hours a week, 1st semester, 3d year. Dr. BOOTH.

Two credit hours.

4. PHYSICAL DIAGNOSIS

This course includes Inspection, Palpation, Percussion, Auscultation, Prognosis and Treatment.

The clinic provides abundant material for the study of tuberculosis and its modern methods of treatment, including tuberculosis therapy. Dr. RALPH MATSON, Dr. RAY MATSON.

5. LABORATORY DIAGNOSIS

A practical course in the laboratory in which the student is taught the chemical microscopical, and bacteriologic examination of blood, urine, sputum, gastric contents, feces, secretions, exudates, etc., and the pathologic and clinical significance. 1 lecture, 2 hours, laboratory both semesters, 3d year. Professor HASKINS.

Four credit hours.

6. MEDICINE CLINIC

A clinic devoted chiefly to instruction in the essentials of theoretical and practical medicine. 1 hour a week, entire 4th year. 1-2, Wed., St. Vincent's Hospital. Professor BELL.

Two credit hours.

7. MEDICINE CLINIC

A clinic in internal medicine confined to the Senior year. 2 hours a week, entire 4th year. St. Vincent's Hospital. Assistant Professor GILBERT.

Two credit hours.

8. MEDICINE CLINIC

A clinic paying especial attention to pathology and diagnosis. 4 hours a week, entire 4th year. Multnomah Hospital. Professor YENNEY.

Four credit hours.

9. MEDICINE LECTURE

A clinic or lecture in medicine with special stress on diseases of the stomach and intestines. 1 hour a week, 1st semester, 4th year, elective. Dr. KOEHLER.

One credit hour.

10. LECTURE AND CONFERENCE IN MEDICINE

A lecture course with frequent quizzes on the more important and more prevalent diseases. 3 hours a week, 2d semester, 4th year. Professor BELL. *Three credit hours.*

11. HYGIENE AND SANITATION

A course treating of practical hygiene with instruction in municipal sanitation, food control and garbage destruction, and the relation of these to public health. 2 hours a week, 2d semester, 3d year. Assistant Professor WHITE. *Two credit hours.*

12. DIETETICS

A course involving the values of foods and the methods of variance of foods in certain diseases. 1 hour a week 1st semester, 3d year. Dr. TAYLOR. *One credit hour.*

13. RADIOLOGY AND ACTINOTHERAPY

A course in electricity as applied to medicine and surgery, including the use of the X-Ray in diagnosis and therapy. 1 hour a week, 1st semester, 4th year. Dr. WALKER. *One credit hour.*

14. CLINIC

Clinic for 3d year students at St. Vincent's Hospital. 1 hour a week, both semesters. Dr. BINSWANGER. *One credit hour.*

15. DISPENSARY

A course in the dispensary in which small groups are assigned to the medical side, and are given practice in writing histories, physical diagnosis, laboratory work, clinical observation and treatment. 8 hours a week, both semesters, 3d year. Dr. BOOTH, Dr. KOEHLER, Dr. MYERS, Dr. ROSENFELD.

16. CLINICAL CLERKSHIP SERVICE

A medical service has been established in connection with the St. Vincent's Hospital for the fourth year students. In this service the attempt is made to bring the student into the closest possible relation to the patient. Each patient entering this deparment of the hospital is assigned to the care of two students. These act as clinical clerks, taking the history, making the physical examination and doing all the clinical laboratory work required. It is the object of this service that each case shall be worked up as thoroughly as possible, in order to teach the student the necessity of careful and complete routine examinations. The work is in charge of three instructors. A well equipped clinical laboratory is at the service of the students. Assistant Professor SELLING, Assistant Professor KNOX, Assistant Professor COFFEN.

17. TROPICAL MEDICINE

This is a lecture and laboratory course upon as many of the important tropical diseases as it is possible to consider in the time allotted to the course. Dr. ROBERG.

VII. NERVOUS AND MENTAL DISEASES AND MEDICAL JURISPRUDENCE

Professor JOSEPHI — Assistant Professor HOUSE

The work of this department is confined to the third and fourth years, and is conducted didactically and clinically as well as by the work in the dispensary.

1. NERVOUS DISEASES

A lecture and conference course dealing with the pathology, symptomatology, diagnosis and treatment of the common nervous diseases. 2 hours a week, 1st semester, 3d year. Professor JOSEPHI. *Two credit hours.*

2. DISEASES OF THE MIND, AND NERVOUS SYSTEM

An advanced course in the pathological conditions of the nervous system and in insanity. 1 hour a week, 2d semester, 3d year. Professor JOSEPHI. *One credit hour.*

3. CLINIC

A clinic in nervous and mental diseases. 1 hour a week, entire 4th year. Multnomah Hospital. Assistant Professor HOUSE. *One-half credit hour.*

3a. CLINIC

A clinic in nervous diseases at the Portland Free Dispensary. 4 hours a week, entire 3d year. Professor JOSEPHI.

3b. CLINIC

A clinic at Morningside Hospital for Insane (by courtesy of Dr. H. W. Coe). 2 hours a week during March, 4th year. Professor JOSEPHI. *One-fourth credit hour.*

4. MEDICAL JURISPRUDENCE AND MEDICAL ETHICS

A course of lectures and recitations in forensic medicine and medical ethics and economics. 1 hour a week, 2d semester, 4th year. Assistant Professor HOUSE. *One credit hour.*

VIII. Pediatrics

Professor Labbe — Dr. Bilderback
Dr. Rosenfeld — Dr. Noyes

Instruction in this department is conducted by means of lectures, conferences and clinical work at the dispensary.

1. ANATOMY, PHYSIOLOGY, AND HYGIENE OF INFANCY AND CHILDHOOD

Lectures and quizzes are conducted in the anatomy, physiology, and hygiene of infancy and childhood, and principles of infant feeding, and in the disorders of nutrition in infancy. 2 hours a week, 1st semester, 4th year. Dr. Bilderback. *Two credit hours.*

2. DISEASES OF INFANCY AND CHILDHOOD

A conference and lecture course in diseases of infancy and childhood. 3 hours a week, 2d semester, 4th year. Professor Labbe. *Three credit hours.*

3. DISPENSARY WORK

In this course small groups are assigned to the Pediatrics side and are given practice in taking histories, physical diagnosis, laboratory work, clinical observation and treatment. 4 hours a week, both semesters, 3d year. Professor Labbe, Dr. Bilderback, Dr. Rosenfeld.

IX. Dermatology and Syphilology

Assistant Professor King — Dr. Payne — Dr. Parker

Lectures, recitations, demonstrations and clinical work will be conducted in dermatology and syphilis in the clinical years.

1. INTRODUCTORY DERMATOLOGY

A lecture and recitation course in the fundamentals of dermatology and in the more prevalent diseases of the skin. Illustrative cases will be exhibited from time to time. 1 hour a week, February and March, 3d year. Assistant Professor King. *One-quarter credit hour.*

2. DERMATOLOGY AND SYPHILIS

A continuation of Course 1. 1 hour a week, 1st semester, 4th year. Assistant Professor King. *One credit hour.*

3. DISPENSARY

A course at the Portland Free Dispensary in which small groups are assigned to the dermatological side and are given practice in writing histories, diagnosis and treatment. 4 hours a week, both semesters, 3d year. Dr. Parker.

X. SURGERY

Professor MACKENZIE — Professor WILSON
Associate Professor ZAN — Assistant Professor BAIRD
Dr. ZIEGLER, Dr. PEASE, Dr. E. ROCKEY, Dr. C. T. ROSS
Dr. HYNSON, Dr. MCLEAN, Dr. WADE
Dr. SHEA, Dr. A. C. SMITH
Dr. HOLDEN, Dr. NORDEN, Dr. P. ROCKEY, Dr. MCCLURE

Surgery is approached didactically in lectures, and in recitations in the principles of surgery, from text assignments throughout the Junior year. Clinical work is conducted in the nearby hospitals in the third and fourth years. Minor surgery is taught clinically and at the dispensary, and operative surgery is presented in the fourth year, during which each student is required to do actual surgical work on the cadaver. Each Senior student is assigned in rotation to take part as assistant in surgical operations and as anaesthetist under proper supervision, in the clinic.

1. SURGERY RECITATION

A course in quizzes in the principles of surgery and surgical pathology from definite assignments in a one-volume textbook of surgery. 1 hour a week, both semesters, 3d year. Assosiate Professor ZAN. *Two credit hours.*

2. SURGICAL CLINIC

Minor surgery is taught clinically by demonstration of technique in elementary surgery, bandaging, care of the injured, etc. 1 hour a week, 2d semester, 2d year. St. Vincent's Hospital. Dr. ZIEGLER. *One-half credit hour.*

3. SURGICAL CLINIC

A clinic in general surgery. 1 hour a week, 1st semester, 3d year. Dr. HAMILTON. *One-half credit hour.*

4. SURGICAL CLINIC

The attempt is made in this course to teach surgery in the most practical manner and during the past eight years a method of instruction has been followed which has been commended in many quarters for its thoroughness.

The classes are limited at the present time to twenty-five students. Four students, who have been previously strictly trained in methods of asepsis, enter the amphitheater with the operating surgeon; two of them are assigned to assist the operator and actually take part in the operation and learn practical lessons in hemostasis, legation of vessels, and general technique; the other two students are stationed at the head under an expert anesthetist

who studies anesthesia with them and instructs them in all methods of administration. While one student is engaged in giving the anesthetic under instruction, the other is being taught how to make observations with the sphygmomanometer studying the reaction the patient to the various operative procedures.

That part of the period which is usually consumed in preparation for operation and the administration of the anesthetic; namely, twenty to twenty-five minutes, is devoted to the study of pathology from specimens collected at previous operations under a special detail from the department of pathology.

Six hours a week, entire 4th year. St. Vincent's Hospital. Professor MACKENZIE. *Six credit hours.*

5. SURGICAL CLINIC

A clinic in general surgery, dealing chiefly with fractures and other lesions of bones. 2 hours a week, 1st semester, 4th year. Professor WILSON. *Two credit hours.*

6. SURGICAL CLINIC

A clinic in general surgery with especial attention to surgical pathology. 1 hour a week, entire 4th year. Multnomah Hospital. Assistant Professor BAIRD. *One-half credit hour.*

7. COMMON SURGICAL DISEASES

A lecture and conference course involving a discussion of the pathology, diagnosis, and treatment of the more common surgical diseases. 2 hours a week, 2d semester, 4th year. Assistant Professor BAIRD. *Two credit hours.*

8. ORTHOPEDIC SURGERY

A lecture and clinical course in orthopedic surgery. 2 hours a week, 2d semester, 3d year. Dr. MCCLURE. *Two credit hours.*

9. OPERATIVE SURGERY

A course in surgery on the cadaver presented by lecture, demonstration and individual work by each student on the cadaver. 3 hours a week, 2d semester, 4th year. Dr. PEASE, Dr. ROCKEY. *Three credit hours.*

10. SURGICAL DISPENSARY

A practical course in surgery, giving the student opportunity to do individual work in minor surgery at the dispensary. 8 hours a week, both semesters, 3d year. Assistant Professor BAIRD, Assistant Professor WHITESIDE, Dr. SHEA, Dr. ROSS, Dr. HYNSON, Dr. ROCKEY, Dr. MCLEAN, Dr. WADE.

11. CLINICAL CLERKSHIP SERVICE

In this service the attempt is made to bring the student into the closest possible relation to the patient. The students act as clinical clerks, taking the history, making the physical examination, and all the necessary examinations. The class will be divided into groups for the study of cases before, during and after operation. Dr. TAYLOR, Dr. JESSOP.

12. SURGICAL DIAGNOSIS

In this course the instructor attempts to give the student the symptoms and physical signs of the more interesting surgical lesions and the manner of arriving at a diagnosis. 1 hour a week, 1st semester, 3d year. Dr. HOLDEN.

13. SURGICAL DIAGNOSIS

Continuation of Course 12. Dr. NORDEN.

14. ELEMENTARY SURGERY

Two hours a week, 2d semester, 2d year. Dr. PAUL ROCKEY.

XI. OBSTETRICS

Professor STORY
Assistant Professor ELLIS Assistant Professor MCCUSKER
Dr. SCOTT

Obstetrics is taught in the third and fourth years in lecture, recitation, and practical courses. Normal and pathological cases are demonstrated in hospital clinics and the out-patient service. Practical work is done by each student on the manikin and in the conduct of labor, under proper supervision in out-patient work. The student must be in attendance on at least six cases before graduation.

1. INTRODUCTORY OBSTETRICS

A lecture and recitation course in the anatomy and physiology of pregnancy, the diagnosis and management of normal pregnancy, and the clinical phenomena of normal labor. 3 hours a week, 1st semester, 3d year. Professor STORY or Assistant Professor MCCUSKER. *Three credit hours.*

2. ADVANCED OBSTETRICS

A lecture, conference and practical course in the conduct of labor and the diagnosis and treatment of pathologic conditions of pregnancy, labor and the puerperium. 3 hours a week, 2nd semester, 3d year. Wednesday, Friday. Professor STORY or Assistant Professor MCCUSKER. *Three credit hours.*

3. PRACTICAL OBSTETRICS

A conference, and practical course in the conduct of labor and management of abnormal presentations and other complications of labor. Each student is required to do practical work with the manikin. 1 hour a week, 1st semester, 4th year. Dr. ELLIS.

One credit hour.

4. OBSTETRICS

(a) Obstetrical measurements, diagnosis of foetal positions and clinical observations during pregnancy. Students will be taken in sections and hours aranged for Seniors. Professor STORY.

(b) Cases of confinement will be demonstrated and Senior students will be allowed to assist in the conduct of labor in the maternity departments of the various hospitals and in the outpatient service. Hours to be arranged. Entire 4th year. Professor STORY, Assistant Professor MCCUSKER, Dr. SCOTT.

XII. GYNECOLOGY

Professor TUCKER — Assistant Professor WIGHT
Dr. ZIEGELMAN — Dr. ELLIS

Gynecology is taught by lectures, recitations, clinics and dispensary work in the third and fourth years.

1. GYNECOLOGY

Lectures and recitations in the anatomy, physiology and pathology of the female pelvic viscera, methods of gynecological examination, and the diagnosis and treatment of pelvic diseases. 2 hours a week, 2d semester, 3d year. Assistant Professor WIGHT.

Two credit hours.

2. CLINICAL GYNECOLOGY

Lectures and clinics in the clinical diagnosis and medical and surgical treatment of diseases of women. 2 hours a week, 2d semester, 4th year. Professor TUCKER. *Two credit hours.*

3. PRACTICAL GYNECOLOGY

Dispensary work will be assigned to Senior students. Hours to be arranged. Dr. ZIEGELMAN.

XIII. Genito-Urinary Diseases

Professor Mackay Assistant Professor Whiteside
Dr. Howard

Diseases of the genito-urinary tract will be considered didactically and clinically in the Junior and Senior years. Practical work will be given at the dispensary in cystoscopy, urethral, catheterization and modern methods of treatment.

1. LECTURE AND CONFERENCE

Lecture and conference in anatomy and physiology of the genito-unrinary tract and study of the diseases affecting it. 2 hours a week, 2d semester, 3d year. Professor Mackay.

Two credit hours.

2. CONTINUATION OF COURSE

With presentation of clinical work and accurate methods of diagnosis and treatment, and clinics at Multnomah County Hospital. 2 hours a week, 1st semester, 4th vear. Professor Mackay.

Two credit hours.

3. DISPENSARY WORK IN GENITO-URINARY DISEASES

Will be assigned as a part of the work in surgical dispensary. Assistant Professor Whiteside, Dr. Howard.

4. CLINIC

A clinic in the pathology, diagnosis, and treatment of genito-urinary diseases, and the use of the cystoscope and other diagnostic appliances. 1 hour a week, 2d semester, 3d year; 1 hour a week, 1st semester, 4th year. Multnomah Hospital. Professor Mackay and Assistant Professor Whiteside. *One-half credit hour.*

XIV. Ophthalmology, Otology, Rhinology, and Laryngology

Professor Nunn Assistant Professor Coghlan
Dr. Ralph Fenton Dr. Kiehle Dr. Dickson
Dr. Ainslie Dr. Davis Dr. French

These branches will be taught separately in the elementary work by means of lectures, demonstrations and recitations, and minor surgery, in the clinics during the Junior year. A more advanced course will be given in the Senior year, including major surgery.

1. EYE

A lecture and quiz course in the anatomy and physiology of the eye and in its more prevalent diseases. 1 hour a week, 2d semester, 3d year. Dr. AINSLIE. *One credit hour.*

2. EAR, NOSE, AND THROAT

A course of lectures and quizzes in the anatomy and physiology of the ear, nose and throat and the pathology, diagnosis and treatment of their disorders. 1 hour a week, 2d semester, 3d year. Dr. KIEHLE. *One credit hour.*

3. DISEASES OF THE EYE

An advanced course of lectures and clinics in the pathology, diagnosis and treatment of affections of the eye, ear, nose and throat. 2 hours a week, 1st semester, 4th year. Professor NUNN and Dr. WRIGHT. *Two credit hours.*

4. DISEASES OF THE EAR, NOSE AND THROAT

A more advanced course in the diseases of the ear, nose and throat. 2 hours a week, 2d semester, 4th year. Assistant Professor COGHLAN. *Two credit hours.*

5. CLINIC

A clinical course in diseases of the ear, nose and throat at Multnomah Hospital. 1 hour a week, entire 4th year. Dr. RALPH FENTON. *One-half credit hour.*

6. DISPENSARY

A practical course in which the students have an opportunity to examine and make observations on cases. 4 hours a week, both semesters, 3d year at the Free Dispensary. Dr. DAVIS, Dr. FRENCH.

7. CLINIC

A clinic at the Portland Free Dispensary paying especial attention to diagnosis. 1 hour a week, 1st semester, 3d year. Dr. DICKSON, Dr. COGHLAN.

8. REFRACTION

A course in simple refraction open to Senior students and graduates in medicine. Hours to be arranged. Dr. ———.

RULES OF THE FACULTY

ATTENDANCE

The roll will be taken at the beginning of each exercise by the instructor.

Attendance upon 80 per cent of the exercises in each subject is required in order to receive credit for that subject.

All students are required to be in actual attendance within the first week of the session and thereafter.

Each student must have been in attendance upon six obstetrical cases before graduation, and these cases will be assigned in rotation. When called to such cases, the student must respond without fail, or await the complete rotation to his name again.

No results of examinations shall be announced to students except from the Dean's office.

Cheating or any act of dishonesty during an examination shall be cause for immediate suspension of a student from classes, pending action of the Faculty, and upon sufficient evidence expulsion shall follow.

The Dean shall have the right to reject any applicant for admission.

The Dean shall have authority to summarily suspend any student for disorderly conduct, immorality, insubordination, or persistently poor class work, and to refer the case to the Faculty for the further penalty of expulsion.

Visitors must not be shown about the Medical School Building without permission from the Office, or an invitation from a member of the Faculty.

Any student, in order to remain in the school, must secure, during the year, at least one-half of the total credit hours for which he is registered during the year, without privilege of re-examination in those subjects in which he has failed or been conditioned.

A condition counts as a failure to receive credit.

Any student who fails to receive credit in one-fourth of the number of credit hours taken bv him, for any given semester, shall be suspended from the school for one semester, and he must repeat the work of the semester in which he failed.

No student shall be permitted to register for the work of the second, third or fourth years, until he has received credit for at least three-fourths of the total number of credit hours for which he was registered during the previous year.

EXAMINATIONS

Each instructor shall give a written examination at the end of his course. A final examination on the entire subject will be given by the head of the department at the completion of the course.

A percentage grade of at least 75 must be secured in each subject in order to receive credit. This grade is based upon the general character of work, in quiz and laboratory, and the final examination.

A grade between 60 and 75 means a condition in the course involved, which implies that a second examination must be taken.

In all re-examinations no grade over 75 will be given; the student either passes or fails.

A condition of more than one year's standing, without re-examination is a failure.

A grade below 60 is a failure, and necessitates repetition of the course in which it was received.

Fourth year students are required to pass in all subjects before receiving degree of Doctor of Medicine. Conditions received in the fourth year, not to exceed two, may be removed by re-examination at the beginning of the following session, and, if removed, the student will receive the degree at the next succeeding commencement.

UNIVERSITY PROPERTY

The people of Oregon, through the University Regents and the Medical School Faculty, grant to the students the proper use of the buildings and equipment.

Any loan from the Medical School to students shall be returned whenever officially requested.

Loans, not returned upon request, are subject to a fine of five cents a day thereafter, and to the cost of the messenger sent for the property. Credit will be withheld until return of such.

Study materials may be purchased from the supply room, at cost, by coupon tickets of $3.50 each, to be obtained from the Assistant Dean. Unused parts of coupon tickets will be redeemed at the end of the college year.

Certain apparatus and costly material is loaned from the supply room on receipt, and subject to special rules.

Circulating books and periodicals may be borrowed for a period of seven days.

Each laboratory and its equipment is controlled by its director. Laboratory property should not be touched without proper consent.

Reference books and periodicals, apparatus and special materials may be obtained from any laboratory by personal arrangement with its director.

The Assistant Dean has immediate supervision of all college work and property. He may be consulted in the College Office.

SCHOLARSHIPS AND PRIZES

One full scholarship and two half-scholarships are open to graduates of the University of Oregon with the degree of A. B., or B. S., of not more than two years' standing. The holders of the scholarships will be assigned to special work in the Medical Department subject to the Dean.

Six positions as student assistant in the laboratory branches are open to all students. These positions carry a salary of one hundred and fifty dollars per session, and scholarship and special qualification are considered in their allotment. Application for these positions must be made in writing to the Assistant Dean, and such application is subject to the approval of the instructor under whom the applicant contemplates serving.

THE SAYLOR MEDAL

The Saylor Medal was founded by the late Professor Saylor. It will be awarded annually to the graduate in highest standing in all departments.

SCHOLARSHIPS 1915-1916

George Earl Fortmiller — Delbert C. Stanard

Ernest Dolph Lamb

RECIPIENT OF MEDAL 1914-1915

Irving Martin Lupton, Saylor Medal

ALUMNI ASSOCIATION

The Alumni Association of the Medical School of the University of Oregon is a strong organization promoting the interests of students and graduates and encouraging scientific and professional progress among its members; also, working with the Faculty to build up in Portland and the Northwest one of the greatest medical schools in the United States.

All graduates and present and past instructors of the medical departments of the University of Oregon and Willamette University are eligible to membership. The dues are $1.00 per year.

The annual meeting of the Alumni Association is held at graduation time and covers three full days. It includes clinics, papers, business meeting and banquet. Many out of town physicians attend the meetings. The proceedings are published each year and copies are sent to all members.

The officers for 1915-16 are: President, Ben. L. Norden, M. D. '07, Portland, Oregon; first vice-president, Otis F. Akin, M. D. '09, Portland, Oregon; second vice-president, Carl J. Hoffman, M. D.'07, Woodland, Washington; third vice-president, David H. Rand, M. D. '85, Portland, Oregon; fourth vice-president, Otis D. Butler, M. D. '87, Independence, Oregon; treasurer, Katherine C. Manion, M. D. '03, Portland, Oregon; secretary, A. G. Bettman, M. D. '07, 809 Stevens Building, Portland Oregon.

SCHEDULE FOR THE FIRST YEAR, 1915-16

FIRST SEMESTER

MONDAY	TUESDAY	WEDNESDAY
8-12 **Anatomy** Dillehunt	8-9 **Organic Chemistry** Binswanger 9-12 **Anatomy** Dillehunt	8-12 **Anatomy** Dillehunt
1-5 **Histology** Creadick	1-5 **Physiological Chemistry** Haskins	1-5 **Histology** Creadick

SECOND SEMESTER

8-9 **Physiology** MacLaren	8-12 **Anatomy** Dillehunt	8-9 **Physiology** MacLaren
9-12 **Anatomy** Dillehunt		9-12 **Anatomy** Dillehunt
